

## Technology Learning Target Guide

Choose one of the following projects as an artifact and prove how you have met each of the learning targets listed beneath the project name by completing a thoughtful, insightful reflection.

### Possible *Project Learning Targets*:

8<sup>th</sup> grade –

- *Public Service Announcement Project*: I can create a Public Service Announcement video (write, plan, research, direct, film, and digitally edit) in order to clearly communicate a message that solves a problem.
- *Math Demo Video Project*: I can create a multimedia video that clearly communicates my understanding of a topic or skill.

7<sup>th</sup> grade – *Comic Strip Hero Project*: (Use all 3 learning targets, focusing mainly on the 3<sup>rd</sup> learning target.)

- *Photography*: I can shoot & edit photos incorporating concepts for composition, light, and subject.
- *Photo Editing & Design*: I can collage multiple photos using photo-editing software.
- **Comic**: I can create a comic story that uses comic strip conventions and design elements that clearly communicate my ideas.

6<sup>th</sup> grade –

- *Keyword Searching*: [Address all three learning targets in reflection.]
  - I can identify main ideas of search topics so that I can choose effective keywords for searching on the Web.
  - I can efficiently use a search engine to locate information on the Web.
  - I can evaluate websites for reliability & accuracy in order to determine the trustworthiness of the information gathered.
- *Designing Crossroads (Microsoft Word + Appleworks Paint)*: [Address all three learning targets in reflection.]
  - I can create a numbered list/outline using the Numbering tool, and a bulleted list.
  - I can create an image using a paint/drawing program.
  - I can insert the image I created into my word processing document.
- *Paint Photo (Appleworks Paint)*:
  - I can create a graphic/image that symmetrically mirrors a photo in line, shadow and color.
- *All About Me (PowerPoint)*:
  - I can create an autobiographical PowerPoint (or Keynote) presentation.
  - I can use my PowerPoint (or Keynote) presentation as a tool to present to an audience.
- *First Ten Presidents (Excel)*:
  - I can create a spreadsheet to organize and sort data.
- *Graphing (Excel)*:
  - I can create a bar graph and a circle graph that accurately represents a set of data.
